## AN HOUR FOR OTHERS

Charity founded by ordinary people wanting to build better communities and brighter futures for our children. We are a platform for individuals and businesses to give time, skills, resources or donations to create positive social change.

Our services which are growing all the time have been developed through kind hearted people and businesses who care, joining together with AHFO and offering their time, skills, resources, donations and expertise to help tackle many problems society finds itself facing today. Poverty, poor physical and mental health, poor living conditions, child obesity, community breakdowns and divisions, isolation, hopelessness and addictions all have a devastating effect on people and society as a whole.

Our groups help build communities empowering and inspiring as we move along. Children and elderly living in poverty and isolation have had living conditions transformed, men and women suffering from depression and anxiety have joined weekly mindfulness classes, families have benefited from chefs showing them how to cook healthy on a tight budget. We have linked many businesses with each other and other grassroots organisations needing support. Families suffering devastating losses and bereavements have been helped with other peoples kindness and compassion. It's a long hard road but we can all play a part in making our world a better one, every hour and every act at a time.
