

Urbanism Awards 2023 nomination: Málaga

“Best climate in Europe. Brilliant location between mountains and sea. Ancient city with fantastic architecture from every epoch. Compact and walkable historic centre. More great museums than you can shake a stick at. Fashionable shopping in pedestrianised streets and quaint alleys. Dozens of great restaurants serving traditional Spanish gastronomy. Above all, great town planning, from the Parque de Malaga to Muelle Uno at the port.”
