Treloar's has a School and College in Hampshire which provides education, care and independence training to some of the UK's most physically disabled children and young people aged 2 to 25. Each year we need to raise £2m to sustain these vital services.

The money raised from the Gala Dinner will enable Treloar's to continue to provide these young people and their families with the vital support they desperately need and the opportunity to live their lives to the full.
