THANK YOU FOR HAVING US

FREE EVENT

7 SEPTEMBER, 8PM
KING STREET/CHEAPSIDE JUNCTION
EC2V 6DT

Come and take a night-time walk exploring a plastic-filled artificial island. Formed by the currents of the North Pacific Ocean, this is the 8th continent, the Great Pacific Garbage Patch. Is this the end of life as we know it?

This adrenaline-fuelled performance from Générïk Vapeur and Gorilla Circus features daring aerial acrobatics, steaming shopping trolleys, a band on wheels and high-wire stunts, to question if we have sacrificed our natural world in the pursuit of technology. From Cheapside to St Paul's Cathedral, the City's streets will transform into a street-theatre spectacular.

Suitable for adults and children of all ages. Sponsored by Cheapside Business Alliance. Part of Totally Thames Festival.
