

## Implementing the QUIPP App toolkit at your unit

### Welcome to the QUIPP App Toolkit

#### What the toolkit includes:

- 1) **Manager information** (set up information etc.)
- 2) **Training PowerPoint presentation** (for internal training, induction etc.)
- 3) **QUIPP for staff** (basic and practical information on qfFN, QUIPP etc.)
- 4) **Women arriving in TPTL Flowchart** (for clinicians to use on women who arrive in threatened preterm labour)
- 5) **QUIPP Evidence document** (for those who want to know the evidence behind QUIPP, fFN etc.)
- 6) **QUIPP Evidence quick sheet** (a one A4 page quick sheet on the evidence for busy clinicians)
- 7) **QUIPP Toolkit FAQ's**
- 8) **QUIPP Audit proforma** (to audit QUIPP use in your local unit)
- 9) **QUIPP for women** (a booklet to give to women when they arrive in threatened preterm labour)
- 10) **QUIPP Video** (*to be produced – currently unable due to COVID-19*)
- 11) **QUIPP Lanyards** (*to be produced – currently unable due to COVID-19*)
- 12) **QUIPP Stickers** (*to be produced – currently unable due to COVID-19*)

#### **Appendix 1:** PeriLynx System Quick Reference Guide

This toolkit has been rapidly rolled out during COVID-19 as it helps decrease unnecessary admissions and transfers. The information is continually being updated so please ensure you are reading the most up to date version.

The QUIPP App toolkit will help you implement the QUIPP App at your local hospital, improving care for women who arrive in threatened preterm labour.

Any questions at all please email the QUIPP App Toolkit Group© at: [quippapp@gmail.com](mailto:quippapp@gmail.com)

The QUIPP App Toolkit was developed by the QUIPP App Toolkit Group© (Ms Naomi Carlisle, Dr Ellie Watson & Professor Andrew Shennan) at King's College London, and Guy's and St Thomas' NHS Foundation Trust.

Development of The QUIPP App Toolkit was funded through a Health Innovation Network South London 'Innovation Award 2019/2020' awarded to Ms Naomi Carlisle, Dr Ellie Watson & Professor Andrew Shennan.
