

Welcome to

# The QUIPP App Toolkit

For women in threatened preterm labour

Version 2

## Welcome to the QUiPP App Toolkit

### Implementing the QUiPP App toolkit at your unit

#### What the toolkit includes:

- 1) **Manager information** (set up information etc.)
- 2) **A) Training PowerPoint presentation** without voiceover (for internal training, induction etc.)  
**B) Training PowerPoint presentation** with voiceover (for internal training, induction etc.)
- 3) **QUiPP for staff** (basic and practical information on qfFN, QUiPP etc.)
- 4) **Women arriving in TPTL Flowchart** (for clinicians to use on women who arrive in threatened preterm labour)
- 5) **QUiPP Evidence document** (for those who want to know the evidence behind QUiPP, fFN etc.)
- 6) **QUiPP Evidence quick sheet** (a one A4 page quick sheet on the evidence for busy clinicians)
- 7) **QUiPP Toolkit FAQ's**
- 8) **QUiPP Audit proforma** (to audit QUiPP use in your local unit)
- 9) **QUiPP leaflet for women** (a leaflet to give to women when they arrive in threatened preterm labour)
- 10) **Antenatal steroids leaflet for women**
- 11) **QUiPP sticker template** (*which can be reformatted to fit the sticker printer paper you use at your unit*)
- 12) **QUiPP Case study**

#### **Appendix 1:** PeriLynx System Quick Reference Guide

#### **Appendix 2:** Fetal Fibronectin webinar recordings

Version 1 of this toolkit was rapidly rolled out during COVID-19 in April 2020 as it helps decrease unnecessary admissions and transfers. Version 2 has been updated based on additional feedback from sites and was made available in August 2020. Please ensure you are reading the most up to date version through visiting [www.bapm.org/quipp](http://www.bapm.org/quipp)

The QUiPP App toolkit will help you implement the QUiPP App at your local hospital, improving care for women who arrive in threatened preterm labour.

Any questions at all please email the QUiPP App Toolkit Group© at: [quippapp@gmail.com](mailto:quippapp@gmail.com)

The QUiPP App Toolkit was developed by the QUiPP App Toolkit Group© (Ms Naomi Carlisle, Dr Ellie Watson & Professor Andrew Shennan) at King's College London, and Guy's and St Thomas' NHS Foundation Trust.

Development of The QUiPP App Toolkit was funded through a Health Innovation Network South London 'Innovation Award 2019/2020' awarded to Ms Naomi Carlisle, Dr Ellie Watson & Professor Andrew Shennan.
