Bristol Health Partners

Photography Exhibition

Have you been affected by Stroke?

What makes me smile? What helps my recovery?

Be part of a photo exhibition celebrating the launch of the Stroke **Health Integration Team (Stroke HIT)** 2-7pm Thursday 15th November 2018

If you've been affected by stroke, send us a photo of what makes you smile or has helped you, someone close to you or someone you have worked with.

It could be a special place, people, things, event or activity that has inspired you.

To register or find out more about the launch event go to :
http://bit.ly/StrokeLaunch

Or contact Molly Dexter on : molly.dexter@bristol.ac.uk or 0117 331 4072

To submit a photo for the exhibition, please contact Emily Dodd

emily3.dodd@uwe.ac.uk or 0117 3287496

Bristol Health Partners

STROKE HIT Launch 15 November 2018

Photography Exhibition Submission form

We invite photograph entries from anyone who is affected by stroke: people who have had strokes, their families, friends, supporters, practitioners and researchers.

You can submit photos electronically: please complete this form and send it with your photograph to:

emily3.dodd@uwe.ac.uk

Or you can provide prints: talk to Emily about submitting these, and your completed form:

0117 3287496

Your name:

(The name (or pseudonym) you would like displayed next to your photograph)

Contact details:

Photograph theme (please select one):

☐ What makes me smile

☐ What helps my recovery

Photograph title:

A brief reflection on your photograph (what does it mean to you?):

Are you happy for your reflection to be displayed with your photograph?

☐ YES

☐ NO

Agreement:

By submitting your photograph, you agree to allow the Stroke HIT to display it at Circomedia, Portland Square, for the launch event and the associated workshops and performances.
Bristol Health Partners may, in addition, use your photograph on its website, on social media channels and in promotional material for the Stroke HIT.

Thank you so much for taking the time to submit your photograph
The Stroke HIT leadership team
